ADDENDUM #2 RFP 10-50-3340

For: Water Storage Tank Maintenance, Forsyth County, Georgia

This addendum supercedes and supplements all portions of the bidding documents and becomes part of the contract documents for the above referenced project.

Where any item called for in the specifications or indicated on the drawings is supplemented hereby, the original requirements shall remain in effect

Where any original item is amended, voided or superceded hereby, the provision of such item not so specifically amended, voided or superceded shall remain in effect.

Response to questions received:

1. Under instructions it states a performance bond in the amount not less than 100% of the total contract amount is to be provided by the successful firm. It is my understanding that a performance bond can only be written for the total value of the work that is to be completed in the contract year, and we don't know the term of the contract, we can only bond the work to be completed in the year minus any future maintenance premium. Please reconsider the need for a bond or define specifically what is to be covered.
A Performance and Payment Bond will be required by the successful firm. The bond amount should be for the work to be completed in the initial year if it will be a multi-year contract. Please see Addendum #1 for term options.
