Answers to Submitted Questions

- 1.** Under “the notifications can be personalized (origination site) so Forsyth citizens do not ignore the notification as a telemarkter call” do you want the call coming into the citizen to appear that is from within the County (same area code or perhaps prefix) or will some other solution work? **ANSWER: On the caller id it is preferred that it show Forsyth County or at least “emergency message”. From the research that has been performed if it is an out of the area number they do not respond/answer and messages are delayed in reaching people.**
