Government Alcoholic Treatment Center	100	100	100	100	100	100	0

Measurement Method 1: Distances in blue cells shall be measured by the most direct route of travel on the ground and shall be measured in the following manner: (1) In a straight line from the front door of the structure from which alcoholic beverages are sold or offered for sale. (2) To the front door of the building of a church, government-owned treatment center or a retail package store. Or (3) to the nearest property line of the real property being used for educational purposes.

Measurement Method 2: Distances in orange cells are measured from the property line of the tract on which is located the business regulated under this ordinance; to the property line of the tract which is located the church, school ground, or college campus; and along a straight line which describes the shortest distance between two property lines.

Note 1: Separation requirements for all measurement methods are based on use, not ownership.

Note 2: Schools or colleges referred to herein, shall include only such state, county, city, church, private, or other schools that teach the subjects commonly taught in the common schools and colleges of this state and expressly exclude buildings used by school officials solely for administrative purposes in which school children are not regularly taught.

Note 3: Survey or cover letter must provide a written explanation of how measurements were conducted; any method of measurement utilized must comply with the latest version of the county alcohol ordinance.
