

SR 369 & 400 PROJECTS

FACT SHEET

Project Description

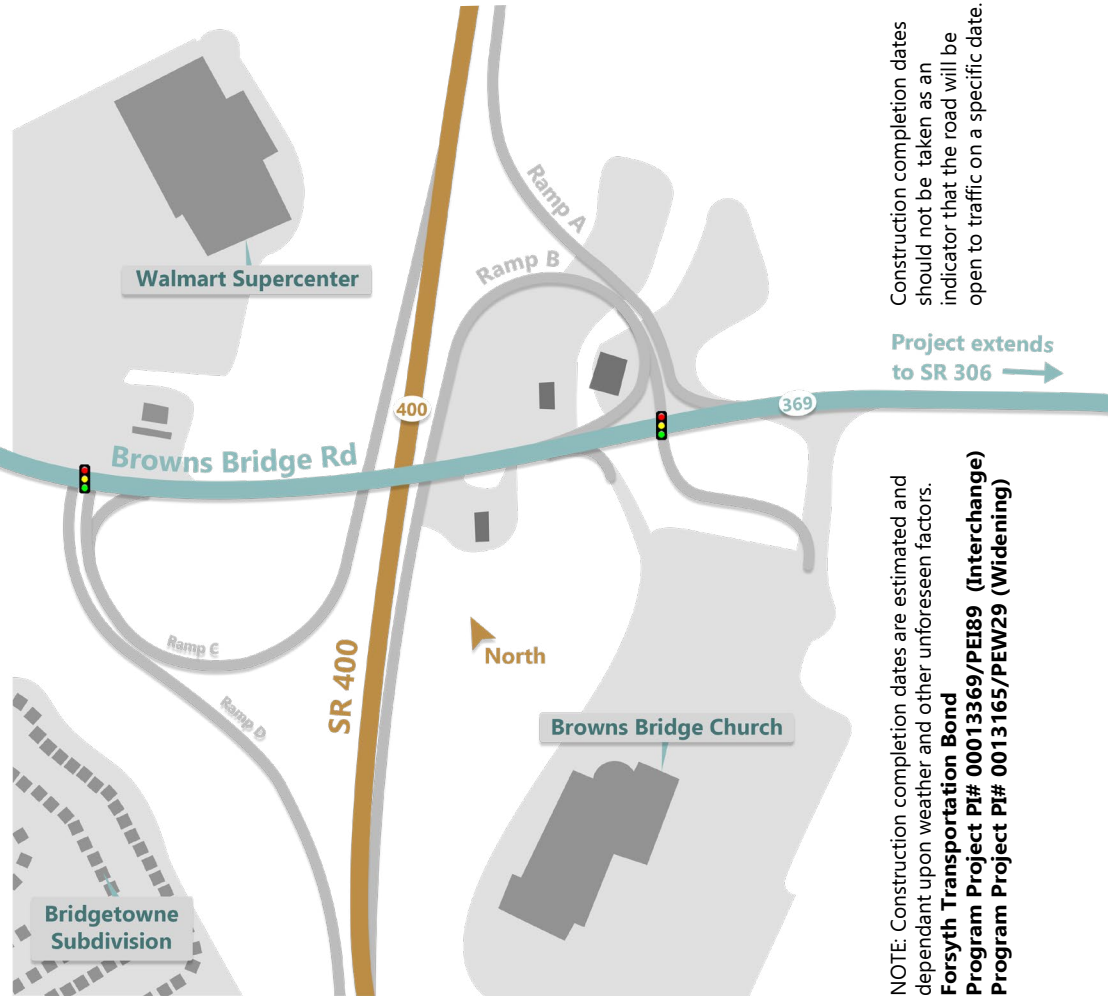

The project will widen SR 369 (also known as Brown's Bridge Rd.) from a two-lane road to a

four-lane road, divided by a 20-foot raised median. There will be a partial cloverleaf interchange at SR 369 and SR 400. The road will be widened from just west of SR 9 to slightly east of SR 306, a distance of approximately 2.0 miles. The project will also include an 8' enhanced sidewalk trail along the south side of SR 369, with a five-foot sidewalk along the north side.

Construction Steps

The steps for the SR 369 widening and SR 400 interchange include, but are not limited to, the following activities:

- **Right of Way Acquisition (Est. November 2017 to December 2019)**
- **Final Plans Complete (August 2019)**
- **Construction Contract Bid (December 2019 Bid Letting)**
- **Construction Complete (Spring 2023*)**

Construction completion dates should not be taken as an indicator that the road will be open to traffic on a specific date.

NOTE: Construction completion dates are estimated and dependant upon weather and other unforeseen factors.

Program Project PI# 00013369/PEI89 (Interchange)
Program Project PI# 0013165/PEW29 (Widening)

Traffic Control During Construction

Stage construction and various types of traffic control devices will be used during the construction period (approx. 36 months*). Temporary lane closures may be required during the different stages of construction.

Funding for the Project:

The extension was identified in the Forsyth County Major Transportation Plan of 2006. In 2014, Forsyth County voters approved a general obligation bond of up to \$200 million dollars to finance transportation projects, including the widening of SR 369 and cloverleaf interchange at SR 369 and SR 400. The project is joint project between Forsyth County and the Georgia Department of Transportation (GDOT). GDOT has currently obligated \$16 million to the project and Forsyth County set aside \$33 million in its 2014 bond referendum.

Funding - Current Status:

Now in its final stages of pre-bid activities, the SR 369 widening and cloverleaf interchange at SR 369 and SR 400 is projected to be sent out for bid in December 2019. The design plans are completed, and right-of-way parcels are being acquired. Final estimated construction cost is \$58 million.

Comments

Written comments about the project may be provided during the Open House or received by mail until December 3, 2019. Written comments should be sent to Mrs. Denise Farr, Capital Investment Program Manager, Forsyth County Engineering Department, 110 East Main Street, Suite 120, Cumming, GA 30040. All comments will be made a part of the project record. We hope you will take advantage of this opportunity to let Forsyth County know your view of the upcoming construction project.

The displays will be available for review for ten days after the public information open house at the Forsyth County Engineering Department located at 110 East Main Street, Suite 120, Cumming, GA 30040. A copy of all comments received will be available for public review at this same location, as soon as compilation is completed.
