

Forsyth County GIS Department

Site Development Checklist

Address Review

Project Name: _____

Project Number: _____ Date of Review: _____ Ticket #: _____

Site addresses and building numbers for EACH building must be located in a box on the cover page of the plans labeled as “Site Addresses” and clearly visible.

<u>Site Addresses:</u>

Each building must be labeled with a building number/letter. BOTH address number & building number/letter must be located on each building footprint. Addresses must be boxed in. Example:

--

Remove all references of the city & zip code for this project from the plans.

No addresses should be included on utility pages. The GIS Dept will not be reviewing/responsible for utility pages.

All public roads, private roads and/or easements within Forsyth County, contiguous with three (3) or more parcels or accommodating three (3) or more addresses shall be assigned a unique road name approved by Forsyth County Engineering.

All street names must be labeled on the site plan page.

Label all access easements and show them in their entirety on the site plan page & define easements intended use. These easements may be required to be named. This will ultimately be determined by the Fire Marshall and GIS.
