FOR IMMEDIATE RELEASE

FORSYTH COUNTY FIRE STATION #14 TO CLOSE
TEMPORARILY FOR FACILITY REPAIRS

Personnel, equipment to operate from Fire Station #2

FORSYTHCOUNTY, Georgia – Forsyth County Fire Station #14 will temporarily close beginning Monday, October 5, to allow for repair work to the station’s driveway and parking areas. Fire Station #14 is located at 800 McFarland Road.

During the closure, personnel and apparatus from Fire Station #14 will operate out of Fire Station #2, located at 4055 Carolene Way.

“This current condition of the driveway and parking area could create a potential hazard to our emergency personnel’s ability to safely respond to emergencies, and could also pose a danger to the fire equipment,” Fire Chief Danny Bowman said.

The work is expected to take approximately one month, weather permitting. Similar repair work will be scheduled in the future for Fire Station #15.

Residents are reminded to always dial 911 in the event of an emergency.
