FOR IMMEDIATE RELEASE

FORSYTH COUNTY WATER QUALITY REPORT
AVAILABLE FOR CITIZENS

Report details water quality in 2010

FORSYTHCOUNTY, Georgia – The Forsyth County Water and Sewer Department’s 2011 Water Quality Report is now available and will be mailed to customers with water bills throughout May. The report, which covers 2010, provides information on where the county’s water comes from, what it contains and how it compares to standards set by the regulatory agencies. In 2010, Forsyth County’s water met all U.S. Environmental Protection Agency and state drinking water health standards.

“Forsyth County takes great pride in serving our more than 46,000 customers, and in sharing this Water Quality Report with them each year,” Director of Water and Sewer Tim Perkins said.

Additional copies of the report are available in the Water and Sewer Department office (Suite 150) in the County Administration Building, located at 110 E. Main Street in Cumming. Reports can also be mailed upon request by calling 770.781.2160. Visit the Water Department page at www.forsythco.com to view the report online.
