FOR IMMEDIATE RELEASE

TEMPORARY CLOSURE OF WATSON ROAD

FORSYTHCOUNTY, Georgia – Watson Road will be temporarily closed to through traffic beginning Monday, November 7. This temporary closure will allow for the construction of an 8' x 8' reinforced concrete box culvert on Watson Road at Yellow Creek. The road is slated to re-open to through traffic on Wednesday, December 21. During the closure, a detour route will be marked.

“Replacing the current undersized culvert will help eliminate flooding of the roadway in this area,” Director of Engineering John Cunard said. “Motorists’ patience during this temporary closure is appreciated.”

The project is funded by the county’s current Special Purpose Local Option Sales Tax Program, SPLOST VI.
