FOR IMMEDIATE RELEASE

TEMPORARY CLOSURE OF FOWLER ROAD

FORSYTHCOUNTY, Georgia – Fowler Road will be temporarily closed to through traffic for two days beginning Saturday, October 8, 2011. This temporary closure will allow for the installation of triple cross drains for the State Route 9 at Fowler Road intersection project. The road is slated to re-open to through traffic on Sunday, October 9.

“We certainly appreciate the patience of motorists traveling in this area during the construction period,” Director of Engineering John Cunard said.

The project is funded by the county’s current Special Purpose Local Option Sales Tax program, SPLOST VI.
