FOR IMMEDIATE RELEASE

NEW PLAYGROUND AT CENTRAL PARK NOW OPEN

Facility features slides, climbers, swings and more

FORSYTHCOUNTY, Georgia – Visitors to Forsyth County’s Central Park now have a new place to play.

A new playground at the park was recently completed and features a tot-lot area for ages two to five and an area for ages five to twelve. Children can use slides, climbers, swings and more all built out of metal and plastic, compared to the old playground which was a wood structure. The old playground was replaced due to wear and tear, and the inability to obtain parts for repair.

“We are excited to offer this new playground to families visiting Central Park,” said Assistant Director of Parks and Recreation Tommy Bruce. “It is a great playground that kids are really going to enjoy.”

The new playground at Central Park was funded by the Parks, Recreation and Green Space Bond approved by voters in 2008.

Central Park is located at 2300 Keith Bridge Road and features athletic fields, tennis courts, picnic pavilions, mountain bike trail, a disc golf course, a walking/jogging path and a recreation center.
