**FOR IMMEDIATE RELEASE**

**COME SEE THE PLAN TO IMPROVE  
HIGHWAY 400 AT McGINNIS FERRY ROAD**

**FORSYTHCOUNTY, Georgia** – The Georgia Department of Transportation and Forsyth County are developing a project to improve mobility on Highway 400 at McGinnis Ferry Road. Forsyth County is hosting a public information open house on the proposal from 5 p.m. to 7 p.m. Thursday, September 10 at the Forsyth Conference Center at Lanier Technical College located at 3410 Ronald Reagan Boulevard in Cumming.

Georgia DOT engineers and consultants will be available to discuss the proposal. There will not be a formal presentation during the open house.

The project includes construction of an interchange on Highway 400 at McGinnis Ferry Road, widening Highway 400 south from McGinnis Ferry to McFarland Parkway, widening McGinnis Ferry Road and operational improvements at intersections along McGinnis Ferry.

The project is a GDOT partnership project included in the Forsyth County Transportation Bond approved by county voters in 2014. It is receiving local funding through the Bond as well as federal funding.

“Forsyth County made a historic decision last year, taking control of their future mobility through a transportation bond. The people of Forsyth are purposefully investing in their own infrastructure. This new interchange at 400 and McGinnis Ferry is a product of that investment. We are proud partners with Forsyth County and look forward to showing you the plans to improve 400 and McGinnis Ferry Road,” exclaimed Rudy Bowen, Georgia DOT Board Member representing the 7<sup>th</sup> Congressional District.
