Kelly Mill Road Widening Project No. PEW23

Project Fact Sheet

Project Description:

The project consists of the widening of Kelly Mill Road to provide an urban road section with 12 foot travel lanes from of S.R. 371(Post Road) to Bethelview Road. The existing two-lane road will be widened to provide turning lanes at all intersections and a traffic signal at West Forsyth High School / Savannah Run. Curb and gutter with a five-foot wide sidewalk will be provided on both sides of the roadway along the entire length of the project. A new section of five-foot sidewalk will also be constructed along the south side of Kelly Mill Road west of S.R. 371/Post Road to connect to the existing sidewalk at Elder Field Lane. Curb cuts will be provided at all existing driveways and the proposed roadway construction will follow the existing alignment. The roadway will remain open to traffic during construction.

Project Length:	1.63 miles
Speed Limit:	40 mph
Avg. Daily Traffic Volumes:	8,380 (current, 2012); 11,800 (future, 2032)
Est. Construction Cost:	\$ 3,550,000
Est. Construction time:	12 months
Number of Parcels:	78
New Proposed Signalized Intersections:	New traffic signal at Kelly Mill Road at West Forsyth High School & Savannah Run Existing traffic signals at Kelly Mill Road at S.R. 371/Post Road and Kelly Mill Road at Bethelview Road will remain.
